Work Experience & Credentials

Xebia IT Architects – Center of Excellence management
2019- Present

Leading Xebia's center of excellence for BFSI and partnership, I was able to grow the head count and project counts to multi-fold. I was able to increase the strategic partnerships from 1 to 5+. Part of my roles include team management, solutions architecture design, application of design thinking to innovate accelerators and tools to improve productivity. Handled projects based on Backbase, i-exceed, Mambu, idmission, Actico and green field development.

I am also managing Xebia's Knowledge Exchange program for internal and external training management programs. It includes blogging, tech-talks and other knowledge sharing platforms.

Clix Capital – Loan Origination and Onboarding System
2019-2019

I delivered a multi-channel loan origination and customer onboarding system by defining the technical requirements, interacting with the tech vendors. With this project, we were able to reduce loan disbursement time from a few days to a few minutes.
This project served multiple loans including personal, device financing and other loans. The green field project was developed using Angular and Java (Spring-Boot).

Xebia IT Architects – Backbase, Liferay
2014- 2019

As a Sr. Consultant, I worked with multiple banks and banking products to strategize and develop banking solutions for different customers. The roles include development, designing of internet and mobile banking systems, coaching and mentoring tech teams on different products including Backbase and Liferay. I was responsible for omni-channel delivery for different banks, including support and maintenance of the IT systems. Java, Python, JavaScript, AngularJs, Spring, SpringBoot, Jenkins, TDD, Junit,

Sapient Nitro – Backbase Developer
2013-2014

As a Sr. Associate I was responsible to deliver customer facing financial application for a U.S. based Fintech. I was responsible for developing frontend widgets, and backend services using Backbase. Core technologies: Java, Spring, JQuery, Maven, MySQl etc.

Infosys Ltd. – FEBA (Finacle E-Banking)
2008-2013

Designing, Developing, Customizing, Supporting and pre-sales for FEBA (Finacle E Banking Architecture) product from Infosys Ltd (Now Edgeverve). The technologies include : Java, Ant, EJB, XML, JavaScript, Oracle, MS Sql, and other in-house tools.

Sebiz Infotech – SEO Trainee
2007-2007

Developing and managing SEO friendly websites, while increasing page rank and the marketing capabilities for customers by enhancing content, networking, and improving page performances. Technologies HTML, CSS, JavaScript, DotNet etc.
